

Intuition · S²D² transports the base prediction to the ground truth in one Euler step on the per-voxel simplex

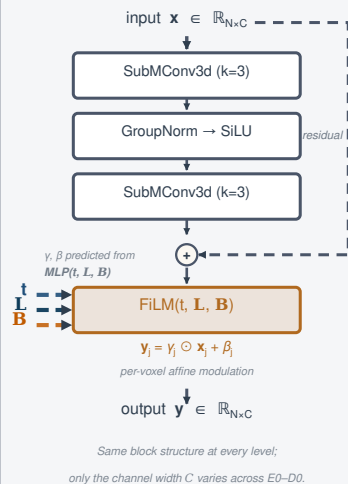

Architecture · 4-level sparse 3D U-Net · per-level FiLM modulation from time t , LiDAR $\mathbf{L}$, BEV $\mathbf{B}$

Sparse Residual Block

(used in every E/D/bottleneck block)

Qualitative example · rare-class win on SemanticKITTI val seq 08 frame 001390 · motorcyclist IoU jumps +14.3%
